#NABI2019 was phenomenal with so many great discussions and new faces. We've posted resources, including presentations and videos from the Summit, on our website.

We are already starting to plan #ARIS2020, which will be April 28-30 in Durham, NC. Hurry and secure your spot during our flash sale, which ends on Monday!

We're going to be sending a monthly newsletter moving forward to keep you posted on what's been happening and what to look forward to from ARIS.

We are also looking to spotlight you in our newsletters so we can celebrate your wins as a community. Please send us good news: arisresearchandsociety@gmail.com. You may see your submission next month in our ARIS Impacts E-Newsletter and/or on Twitter!

Susan Renoe, Ph.D., Assistant Vice Chancellor for Research, Extension, & Engagement, University of Missouri and PI of NABI and ARIS

Join Us 6/10 to Discuss the NABI to ARIS Transition

During #NABI2019, we announced the move from NABI to ARIS, thanks to a $5 million award from NSF.

For those who were unable to join the conversation at #NABI2019 or those who have questions now that you've had some time to think about it, we're hosting a webinar to discuss what this transition will mean for research impacts.

We invite you to join the conversation!

June 10 @ 10 AM CST - Dial-in or log-in

- Susan Renoe, Ph.D., Assistant Vice Chancellor for Research, Extension, & Engagement, University of Missouri and PI of NABI and ARIS
- Kevin Niemi, Ph.D., Director of Outreach Programs and member of ARIS Leadership Team
- Janice McDonnell, Associate Professor, Science Engineering Technology (SET) Agent and member of ARIS Leadership Team
#NABI2019 Weeklong Sizzle Reel

We've posted 15 videos from #NABI2019, and we still have more to post!

Subscribe now to our YouTube channel to relive the 2019 Summit, and see what we have planned for 2020!

Join ARIS Summit Proposal and Transition Committees

We need your help to plan and determine the future of ARIS by joining our committees to help make #ARIS2020 Summit and/or the transition from NABI to ARIS as seamless as possible.

We know you are an expert and have great opinions, but we need you to volunteer to help us bring in new voices, expand our impact and take research impact to the next level.

Please sign-up to join the #ARIS2020 Proposal or Transition Committees today!

ARIS Impacts Spotlight: Fellows Team Nadkarni-Weber-Stylinski

Congratulations to Team Nadkarni-Weber-Stylinski!

- **Nalini Nadkarni**, Ph.D., University of Utah, School of Biological Sciences
- **Caitlin Weber**, University of Utah, STEM Ambassador Program
- **Cathlyn (Cat) Stylinski**, Ph.D., University of Maryland Center for Environmental Science

Team Nadkarni-Weber-Stylinski received $7,500 to review published literature and reports to determine if and how ecologists participate in dialogues with public audience about their work, and identify emerging trends in public engagement by ecologists. The hope is that this work will offer insight into the prevalence of public engagement practices and outcomes in ecological literature and reports, and will provide guidance for documenting public engagement in other scientific disciplines.
ARIS Impacts Successes in May

- May 16-17 - Dr. Kevin Niemi (UW-Madison), Dr. Thomas Tubon (Madison College) and Megan Heitmann (Iowa State University) presented ARIS to the Research Coordination Network for Advanced Manufacturing of Cell & Tissue-Based Products (CAMCTP) in Madison, WI.
- May 23 - Dr. Susan Renoe (University of Missouri) gave keynote remarks on "Broadening your impact: An engaged perspective" at American Association of Agriculture Educators in Des Moines, IA.
